Indian Institute
of Information
Technology ,
Allahabad

Objective:

To build a long term promising career with a reputed firm, which encourages professional growth through a wide range of challenging assignments, which would use my skills and knowledge, and allow me to gain expertise and enhance my skills.

Technical Skills:

Programming Language:	C, Java
Operating System:	Windows, Linux
Web Programming:	HTML & CSS, JavaScript,
DBMS:	SQL server, MY sql

Projects:

- ❖ **Developed GUI to transfer tables among various database management software(B.tech - Mini project):**
This system can be used to transfer tables from one DBMS to any other DBMS.
- ❖ **Developed web based bug tracking system(B.tech -Major project):**
This is a web base system that can be used to report bugs faced while using a software. We can register for the system and get a unique user id and check for the solutions for the bugs by logging in to the system.
- ❖ **Reference based plagiarism detection of research paper (M.tech Thesis):**
This is a java based GUI that can be used to check the plagiarism in a research paper by comparing the content of the query document to the content of the reference research documents mentioned in the documents. We match the content by using a continuous trigram method.
